Let the Internet make you money with

Electronic Commerce

Don't just have a web page with contact information, let your web page be your newest sales tool.

Take orders from customers and resellers 24 hours a day over the Internet. Salsgiver Inc. offers free access to their secure server which ensures the security and privacy of these transactions. Salsgiver Inc. can custom design your Electronic Commerce application to give you more advanced ordering capability with a shopping cart and email-to-fax for added convenience to you and your customers.

Salsgiver Inc. is a full service Internet provider offering Silicon Graphics servers, high speed digital dial-in connections, 24x7 monitoring, UPS and generator backups, network and security consultation and server co-location.

To set up a consultation to find the best Electronic Commerce configuration for you and your business please contact Salsgiver Inc. at (724) 295-1970 or email info@salsgiver.com

Proof of Identity --
Salsgiver Inc.'s secure server uses a unique Digital ID. This ensures that all data sent and received is encrypted and therefore can not be read or modified by anyone else.

Strong Security --
Based on the same technology used to protect nuclear missile codes. The secure server uses the strongest security available today. Best of all the technology you need to establish a secure channel for your customers is already enabled on most web browsers from Netscape and Microsoft.

Peace of Mind --
Not only are Secure Server IDs based on the strongest available encryption technology, but they are backed by VeriSign's NetSureSM Protection Plan. NetSure provides up to $100,000 of protection against economic loss due to theft, impersonation, corruption, or loss of use of an ID. Additionally, VeriSign has partnered with Comdisco Continuity Services to provide full disaster recovery for all Digital ID services.

Transfer Your Domain --
Transfer your domain from your current provider to Salsgiver Inc. at no additional charge and let the Internet start making you money with Electronic Commerce.

Salsgiver Inc. can add an order feature to your pre-existing web site and provide you with any design or programming services you may need.
